Meeting minutes from December, 2007 were approved.

**OLD BUSINESS**

A copy of the survey was taken to a meeting Chris had with Mike Mueller. He already had a copy, so Chris kept the copy for CLRA. Note: The area is in Linwood Township.

Diane got an e-mail from Randy saying he had closed the Paypal account he had opened. She will now set one up for CLRA.

**NEW BUSINESS**

Chris, Joe, Al Wahlgren, Jim Singer and Mike Mueller met concerning the arch design vs. the bridge design. They were shown pictures of the design with a walk way within that arch. There was barely space for one boat; there is concern about having it wider. The City of Lindstrom wants the bike trail to be adjacent rather than separate because of the cost and aesthetics. CLRA suggested they should raise the arch, reduce the width of the bike trail, eliminate the riprap and widen the arch. The bottom of the proposed archway is 892. Joe than attended another meeting – Lindstrom EDA (Economic Development Authority) where an architect presented some concepts.

To consider: The DNR is Okay with the bottom of the bridge to be 890  
The width should be 10 feet wider (for two boats)  
The depth should be 2 feet deeper

There is an open house February 12<sup>th</sup> for the whole highway 8 design at the Lindstrom Community Center that will last all day.

We need to put out a notice for the open house to urge our members to be there.

Chris made a motion to put out that notice, Joe seconded. Motion carried. We discussed sending out the notice to former members of CLRA.
